

Major Hospital A Major Health Partner	Granting Practitioners “Emergency” Privileges MS-5
Does this policy meet a regulatory requirement? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	Formulated by: Administration Approved by: Medical Staff, Board of Directors Effective Date: 12/17/2001

PURPOSE: To provide practitioners who do not possess clinical privileges at Major Hospital the ability to practice at this facility during an “emergency” (defined as any officially declared emergency, whether it is local, state or national).

GUIDELINE STATEMENTS:

1. The following information must be available to be granted emergency privileges.
 - 1.1. Valid Indiana medical license or documented online verification of licensure from the State of Indiana.
 - 1.2. Photo identification.
2. Within 72 hours of activating the Incident Command Center each volunteer’s identity, license, credentials, certifications, malpractice insurance, and hospital privileges will be verified by the Medical Staff Office / Employee Pool if possible. A record of this information is to be retained in the Medical Staff Office. (see “Emergency” Privileges Checklist attached to this policy).
3. During a declared emergency (1135 waiver) if State and Federal designated healthcare professionals are included in the waiver, they may include Public Health Service (PHS) staff, National Disaster Medical System (NDMS) medical teams, Department of Defense (DOD) Nurse Corps, Medical Reserve Corps (MRS), or personnel such as those identified in federally designated Health Professional Shortage Areas (HPSAs) to include licensed primary care medical, dental, and mental/behavioral health professions. These volunteers will be utilized to address surge needs in the same manner as other volunteers or as directed by the Incident Command Center. Federal, local or state based systems will be utilized to verify the identity and credentials of health professionals, if possible.
4. It is recommended that the practitioner be paired with a currently credentialed medical staff member and should act only under the direct supervision of a medical staff member.
5. Medical Staff coordination is accomplished by the Chief of Staff or his designee working with Incident Command who will assign physicians to appropriate departments as requested by those departments.
6. In a national declared emergency (1135 waiver) or state declared emergency, there may be physicians allowed to work in Indiana if licensed in another state. In this circumstance #2 as above would be followed or the medical staff would appoint an individual to oversee this group.
7. Major Hospital is not required to perform credentialing reviews for, or grant privileges to, members of organ recovery teams if the OPO sends only – qualified, trained individuals to perform organ recovery.
